What is Bio-Magnetic Oxygen Energy Water?

Water is paramagnetic - meaning that it will hold a magnetic charge. In nature, the earth's magnetic field naturally charges water in lakes, wells, and running streams. However, as water passes through treatment plants and is transported through pipes to your home or work place, it loses its magnetic charge. Treating water with magnetic fields simple restores the natural energy and balance that nature intended. Magnetized water has more hydroxyl (OH-) ions that form alkaline molecules which reduces the acidity. Normal tap water has a pH of about 7. Magnetized water is more alkaline and can have a pH as high as 9.2. Magnetizing water reduces the surface tension of the water making it feel softer. It is thinner, wetter, and more absorb able, so it is better able to penetrate cell walls and deliver the nutrients that it carries.

Health Benefits of Bio-Magnetic Oxygen Energy Water

Your body is over 70% water. All biological functions including circulation, digestion, absorption, and excretion depend on water. Water is required for blood, the lymphatic system, and healthy skin and muscles. It is well known among health professionals that when you are sick, the pH of your body is more acidic. Magnetized water, which is more alkaline, raises the pH of your body, which allows the body to get rid of the toxins. Bio-magnetized water is believed to be energy-building, activating, cleansing, and detoxifying. People have reported resolving bladder problems, recovering quickly from a stroke, alleviating arthritis pain, reducing blood pressure, and breaking up kidney and gall stones by drinking magnetic water. Scientific studies have proven that magnetized water has health benefits for animals. Therefore it seems reasonable that it should also be beneficial for humans. Reported health benefits of drinking magnetic water include:

- Magnetic water tastes sweeter and has more clarity.
- Magnetic water reduces acidity in the body and promotes a more alkaline pH.
- Magnetic water promotes healing of wounds and burns.
- Magnetic water has a therapeutic effect of digestive, nervous, and urinary systems.
- Magnetic water can be beneficial for asthma, fevers, colds, coughs, bronchitis, and sore throats.
- Magnetic water can be beneficial for menstrual and menopause discomfort.
- Magnetic water revitalized the body.
- Magnetic water has a positive effect on the autonomic nervous system.
- Magnetic water can help regulate the heart function and clear clogged arteries.
- Magnetic water is beneficial for kidney ailments (removal and prevention of stones), gout, obesity (it improves metabolic activity), and premature aging.
- Magnetic water helps relieve pain.

- Magnetic water infuses energy into the body, controls bacteria, and stimulates brain function.
- Magnetic water can help dissipate toxic deposits in the body's connective tissue.
- Magnetic water can regulate blood pressure (high or low).
- Magnetic water can be used to wash and disinfect external cuts and scrapes.
- Magnetic water will remove the plaque on your teeth if you use it to brush your teeth, rinse your mouth, and drink.
- Magnetic water will make your hair softer and more manageable while using less shampoo when used to wash your hair.
- Magnetic water is ionic so it helps reset the charge on cell walls, thus promoting better circulation.

Pets Benefit of Bio-Magnetic Oxygen Energy Water

Your pets will enjoy many of the same benefits from bio-magnetic water that you do. They will drink more water, have more energy, and feel younger and healthier. A friend was giving her dogs magnetic water. When she moved, she temporarily had to give them tap water. After a few days, they began scratching all the time. When she started them back on bio-magnetic water, the scratching stopped almost completely.

Plants Benefit of Bio-Magnetic Oxygen Energy Water

Bio-Magnetized water will help your plants grow stronger, greener, and larger. In one study seedlings' germination rates were 68 % with bio-magnetized water, while with non-magnetized water only 8% germinated. In another study, Texas A&M researchers found that squash weighed 24% more when it was grown with magnetized water vs. non-magnetized water. Bio-magnetic water is more solvent and has a lower surface tension, so nutrients in the water are absorbed more readily. Thus you get a healthier plant while using less fertilizer.

Other Fluids & Uses

Almost any fluid can be magnetized. Using Bio-Magnetic Water will drastically improve the taste of coffee, tea, and foods. Foods and beverages made using magnetic water will acquire the same healing powers as bio-magnetic water. Cosmetics, facial and skin products function a lot better when magnetized. Magnetized milk will give vigor and vitality to the weak and exhausted person. Magnetized milk has been proven useful for recuperating and enhancing sexual power. When fruit juices are treated with bio-magnets, they become more refreshing and give more nourishment. Beer can be magnetized to give better effect. Use bio-magnetic water to make your coffee and after a month or two the inside of your coffee maker will look like new. The bio-magnetic water will remove the scale build-up in your coffee maker.

How to Make Bio-Magnetic Oxygen Energy Water

Making Bio-magnetic water is quite simple: just place a glass or container filled with water on a magnetic pad. Never use a metal container. You want to use a container that has a flat bottom without any raised edges. You want the bottom of the container touching the magnet pad. How long you need to leave the water on the magnet will depend on how much water you have. I usually use a gallon milk container and leave it on the pad for 4-6 hours or longer. It won't hurt to leave it there longer, you can even just leave the container on the pad and refill it as you use the water. The water will stay magnetized for several days after you take it off the magnet.

Summary of Bio-Magnetic Oxygen Energy Water

There is a long history of the use of magnets to improve the quality and health benefits of water. Many countries have been using magnetic water for patients with digestive, urinary, and nervous problems, for pain, swelling, and many other ailments. Whether all of the claims are true or false remains to be tested by science. However, Magnetic Therapy has been accepted by many for the relief of pain. It is now accepted that each of our cells possess a small magnetic field and that water can be magnetized. Then, the logical conclusion is that magnetic water has the ability to affect our cells and help our body perform as it was meant. There is much evidence that bio-magnetic water is beneficial and none that it can be harmful.
